[illegible]

Specialist Invigilators must enter the sample numbers across the Top of the Matrix and ensure the names of all candidates are clearly entered in the left-hand column. They must also ensure that all candidates enter their times in the appropriate place. This form must be returned with the candidate answer forms.

Candidates must enter the time a sample is taken and returned every time that they access a sample. Where a candidate needs more than two opportunities to evaluate a particular sample then the candidate should take a new line at the bottom of the sheet.
