1. Introduction.

BOHS has rigorous procedures in place to ensure that all written and practical examination results are fair, accurate and consistent. However, we recognise that there may be occasions, when a candidate wishes to ask us to review a result or requires more detailed feedback to assist in their revision.

The purpose of this document is to:

- explain to you how we check your original results before they are issued; (Section 3)
- explain how we provide feedback on your result and how to request further feedback if recommended by your training provider (Section 4)
- set out the procedure you must follow if you wish to request a review of a result (Section 5)
- set out the steps we follow if we review a result and right of appeal (Section 6 & 7)

BOHS will make every effort to deal with your request fairly and quickly. There may be exceptional circumstances when it is not possible to complete all the steps within the specified timescale. In cases such as these you will be notified and informed of the date when the process will be completed.

2. Scope of the document.

This document covers:

Written Examinations	Practical Examinations
Written examinations for Proficiency modules	P401 - Analysis of bulk samples IP403/P403 - Fibre counting P408 – Asbestos in soils

Please note that this document does not cover formative or practical assessments. Enquiries about results of formative practical assessments should be directed to your training provider.

3. The procedure for checking results before they are issued to candidates.

Written Examinations

It is extremely important to us that all candidates receive fair and accurate examination results, and you should be aware of the checks we undertake to make sure this happens.

All results undergo an administrative check before they are issued.

We undertake dip samples and statistical analysis of results and the outcomes of enquiries. The analysis confirms that it is highly unlikely that you will have received an inaccurate result and you should bear this in mind before requesting a result review.

Practical Examinations.

There is no 'verification' process due to the scientific/mathematical nature of the assessment – your answers are entered into a database which is set up to provide the result and feedback based on specific pre-entered marking criteria in the database.

You will receive your practical exam result via email and a separate email with a 'Practical Exam Result' feedback document.

4. Feedback about your examination performance.

Written exams.

You will receive your results on your written examinations by email to your chosen email address supplied on your Candidate Information form.

We can provide more detailed feedback upon request or upon training provider recommendation if outside this parameter.

The feedback provided through the 'Enquiry about a result' process will help you identify syllabus areas where you scored low marks, specific exam techniques to achieve higher marks, and areas to focus your revision should you require a resit.

We will not provide a copy of your examination paper or information about individual questions.

All syllabi are shown within the individual Qualification Specifications published on the BOHS website <http://www.bohs.org/qualifications-training/bohs-qualifications/>

If you need any further guidance for revision prior to sitting a resit, please discuss this with the training provider where you undertook the course.

To request further feedback, you must complete the form by clicking on the below link:

<https://www.bohs.org/app/uploads/2024/05/BOHS-DA.61-Enquiry-about-an-Exam-Result-Form-April-24.docx>

and submit to Qualifications@bohs.org

We will start to process the review upon receipt which we aim to complete in 4 weeks.

Practical 'microscope based' exams.

You will receive your practical exam result via email and a separate email with a 'Practical Exam Result' feedback document.

5. Requesting a review of written and practical examination results once they have been issued to candidates.

You must make your request for a review within 14 days of receiving your result email/s. We may refuse to process enquiries after this time.

If you choose to request a review of results, you must complete the form by clicking on the below link:

<https://www.bohs.org/app/uploads/2024/05/BOHS-DA.61-Enquiry-about-an-Exam-Result-Form-April-24.docx>

and submit to Qualifications@bohs.org

We will start to process the review on receipt of the form which we aim to complete in 4 weeks.

6. Processing your enquiry and sending you the results.

We will process your enquiry thoroughly and with integrity. We will follow the steps shown below.

- Check that our procedures for marking and administering examination results have been followed.
- Re-mark your examination paper using a senior marker / subject expert
- Inform you of the result of your enquiry – as follows:
 - If the result changes from a fail to a pass, we will issue you with a revised result (percentage) and pass certificate if applicable.
 - If the result remains a fail, we will provide further feedback regarding the reasons for the fail, including our technical expert's comments on areas of weakness or suggestions regarding the approach to a resit.

7. Appeals

If your result remains a fail, and you are still unhappy about the outcome you are able to appeal your decision by writing into Qualifications@bohs.org explaining your reason for the appeal. If sufficient grounds are justified your case will be reviewed by a committee chaired by the Chief Examiner. Their decision is final.
